In order to obtain the best pricing and maintain the integrity of our partnerships, please do not reach out directly to the National Ski Patrol's partner companies for custom products.

Try to use our partner companies whenever possible for custom products. If you would like to customize an item (i.e. jacket, vest) that one of our partners produces, please make all efforts to prioritize that partner over other companies that are not official partners of NSP or which may compete with current partners of NSP. Specialty Incentives has a vast array of products, and their offerings are not limited to [the website](#). If you would like to customize a particular item but you do not see it offered on their site, please contact them directly to inquire about options; they most likely can meet your needs.
